Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A stylized graphic of a vinyl record. The text "volume 1000" is written in a bold, black, sans-serif font at the top. The record itself is represented by two concentric circles of small, black, pill-shaped indentations. In the center of the record, the numbers "123" are written in a bold, black, sans-serif font, slightly tilted.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
