Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A stylized graphic featuring a spiral composed of the number '0'. The spiral starts from the center and expands outwards in a clockwise direction. At the top left, the text 'volume 1000' is written in a bold, black, sans-serif font. In the center of the spiral, the number '2330' is displayed in a similar bold, black, sans-serif font, oriented vertically.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

However in this "Googolplex Written Out" multivolume set of books, I am doing just that. It consists of 10000000000000000000000000000
00
00000 volumes, and each volume contains 1000000 zeros of the number googolplex. The first volume also contains the initial digit one with which googolplex starts.
