Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large circular graphic composed of many small, stylized '0' characters arranged in concentric rings. The word "volume" is written at the top left, and the number "18157" is written vertically along the left side.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.
