Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large, stylized graphic of a vinyl record. The text "volume 1000" is written in a bold, black, sans-serif font at the top of the record. In the center of the record, the year "1938" is written in a similar font, oriented vertically. The record itself is depicted with concentric lines representing the grooves, and the overall design is minimalist and modern.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.
