Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large black spiral graphic composed of many small circles, each containing a digit from 0 to 9. The digits are arranged in a circular pattern, with the number "51846" visible in the center.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
[illegible]
