

Googolplex Written Out

Wolfgang H. Nitsche

A circular progress indicator consisting of a ring made of small rectangular segments. Approximately one-third of the segments are filled black, while the rest are white. The number "32773" is printed across the center of the circle.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

[illegible]

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
