

Googolplex Written Out

Wolfgang H. Nitsche

A circular arrangement of 16 zeros (0000000000000000) with the text "volume 108116" written across it. The zeros are arranged in a circle, and the text is written in a bold, sans-serif font across the middle of the circle.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

[illegible]

Foreword

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

The number googol has been defined as 1 followed by a hundred zeros:

[illegible]

The much larger number googolplex has been defined as 1 followed by a googol zeros. While this number can easily be written as

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

using the exponential notation, it has often been claimed that the number googolplex is so large that it can never be written out in full.

[illegible]
