

Googolplex Written Out

Wolfgang H. Nitsche

A large, stylized number 6 is formed by a dense arrangement of smaller, black, sans-serif '6' characters. The smaller '6's are arranged in a circular pattern, with their top and bottom strokes forming the outer boundary of the large '6'. The word 'volume' is written in a bold, black, sans-serif font at the top left of the image. The overall composition is minimalist and typographic.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
