

Googolplex Written Out

Wolfgang H. Nitsche

A large, stylized number 9 is formed by a dense arrangement of many smaller, black, sans-serif '9' characters. The smaller '9's are arranged in a circular pattern to create the overall shape of the larger '9'. To the left of this large '9', the word 'volume' is written in a bold, black, sans-serif font. The entire graphic is set against a plain white background.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large, stylized graphic of a spiral made of the number 9, with the word 'volume' at the top left. The spiral is composed of many '9's arranged in a circular pattern, with some '9's rotated to follow the curve of the spiral. The word 'volume' is written in a bold, sans-serif font at the top left of the spiral.

Foreword

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

The number googol has been defined as 1 followed by a hundred zeros:

[illegible]

The much larger number googolplex has been defined as 1 followed by a googol zeros. While this number can easily be written as

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

using the exponential notation, it has often been claimed that the number googolplex is so large that it can never be written out in full.

[illegible]

Wolfgang H. Nitsche
