

Googolplex Written Out

Wolfgang H. Nitsche

A stylized logo consisting of two concentric circles made of repeating digits. The outer circle is formed by the digit '9' repeated 20 times, and the inner circle is formed by the digit '6' repeated 20 times. In the center of the circles, the number '105' is written.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

Foreword

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

The number googol has been defined as 1 followed by a hundred zeros:

[illegible]

The much larger number googolplex has been defined as 1 followed by a googol zeros. While this number can easily be written as

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

using the exponential notation, it has often been claimed that the number googolplex is so large that it can never be written out in full.

[illegible]
