

Googolplex Written Out

Wolfgang H. Nitsche

A graphic featuring a spiral pattern of the digits 9 and 6. The spiral begins at the top left with the word "volume" in a bold, black, sans-serif font, followed by a long string of 18 "9"s. The spiral then winds inward, alternating between "9"s and "6"s. The digits are arranged in a way that creates a sense of depth and movement, with the spiral tightening as it moves towards the center. The overall design is minimalist and modern, using a monochromatic black and white color scheme.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
