

Googolplex Written Out

Wolfgang H. Nitsche

A graphic featuring a spiral pattern of the digits 9 and 6. The spiral begins at the top left with the word "volume" in a bold, black, sans-serif font, followed by a long string of 18 "9"s. From this point, the digits 9 and 6 are arranged in a continuous, winding spiral that fills the majority of the frame. The spiral starts with a "9" and alternates between "9"s and "6"s as it winds inward, creating a complex, organic shape. The digits are all in a bold, black, sans-serif font, matching the style of the word "volume". The overall effect is a dense, textured composition that draws the eye into the center of the spiral.

1.0.1

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

[illegible]
$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$
[illegible]
