Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large spiral graphic composed of the number '0' repeated many times, winding inward from the top right towards the center. The text 'volume 10000' is positioned at the top left, and the number '3287' is located in the middle of the spiral.

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.
