

Googolplex Written Out

Wolfgang H. Nitsche

A black and white graphic featuring a spiral of the number '4'. The spiral starts from the center and winds outwards, composed of many small, stylized '4's. At the top left of the spiral, the text 'volume 10000' is written in a bold, sans-serif font. The overall shape of the spiral is roughly circular, with the '4's becoming smaller as they move towards the center.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large spiral composed of the digit '0' starts from the center and expands outwards. The text 'volume 1000' is positioned at the top left, and the number '424' is located in the middle of the spiral.

Foreword

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

The number googol has been defined as 1 followed by a hundred zeros:

[illegible]

The much larger number googolplex has been defined as 1 followed by a googol zeros. While this number can easily be written as

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

using the exponential notation, it has often been claimed that the number googolplex is so large that it can never be written out in full.

[illegible]
