

Googolplex Written Out

Wolfgang H. Nitsche

A black and white graphic featuring a large spiral composed of the digit '0'. The spiral starts from the center and expands outwards in a clockwise direction. At the top of the image, the text 'volume 1000' is written in a bold, sans-serif font. In the center of the spiral, the numbers '3478' are arranged in a circular pattern, following the curve of the spiral.

Googolplex Written Out

Wolfgang H. Nitsche

Stanford University

A large, thick black spiral composed of the digit '0' starts from the center and expands outwards in a clockwise direction. The spiral is dense and fills most of the frame. At the top left, the text 'volume 1000' is written in a bold, black, sans-serif font. In the center of the spiral, the numbers '3478' are arranged in a small cluster, with the '3' and '4' slightly offset from the '7' and '8'.

Foreword

In 1940, the mathematician Edward Kasner published the book "Mathematics and the Imagination", in which he popularized the words googol and googolplex which his nephew suggested as names for big numbers.

The number googol has been defined as 1 followed by a hundred zeros:

[illegible]

The much larger number googolplex has been defined as 1 followed by a googol zeros. While this number can easily be written as

$$\text{googolplex} = 10^{\text{googol}} = 10^{(10^{100})}$$

using the exponential notation, it has often been claimed that the number googolplex is so large that it can never be written out in full.

[illegible]
